Regione Emilia Romagna

RADIO DAYS

Every year, since six years, Sasso Marconi, symbolic place in the history of wireless connection, in collaboration with Regione Emilia Romagna, Province of Bologna Marconi Foundation, hosts a moment of confrontation between the public and private actors to take stock of the technologies telecommunications. The conference is dedicated in particular to wireless technologies and their use in fighting the digital divide and year after year is the "hot topics" of the moment.

The event is one of the events that make up Radio Days, the week of celebrations dedicated to Guglielmo Marconi and the places of his insights (15 to 23 May 2010), in this big issue attention will go to switch off themes to digital for television broadcasts.

The conference will be held Thursday, May 20 at the conference center "Ca' Vecchia" Sasso Marconi, while Radio Days will a development of nine days, from Saturday, May 15 with the opening ceremony at Grifone.

The conference program collaborates with companies Lepida SpA to develop in detail the 4 sessions making up this important day of study and comparison. The economic support of qualified firms (the TLC sector or the territory of Sasso Marconi) makes possible the realization of Radio Days.
